Some interesting discussion has taken place in the Chamber of Deputies upon a few points in the constitution of that Body, reserved by the charter for revision. Instead of one-fifth of the members being renewed every year, they are all to hold their seats for the duration of the Chamber, which is fixed at 5 years, unless previously dissolved by the king. It is also proposed to confirm the resolution requiring that a man under forty years of age shall not be eligible, and to increase the number of Deputies from 260 to about 400, as a proportion more suitable to the population of the kingdom.

A new mode for drawing a Waggon -It is curious to observe how long some of the simplest improvements have remained undiscovered—the public attention was attracted last Saturday, to one which might very reasonably have been looked for as soon as carts and waggons were invented. All the world knows that one horse fastened close to a carriage, will draw a load that ten horses could not move, if attached to it at a certain distance; and yet, no one ever before thought of placing any portion of the animal power, behind a waggon, to push it, till Saturday, when one of the water side heavy coal waggons, with two of the horses shafted behind, and only two before, drew it up the greater part of the steep towards the Strand, and before it reached the summit, a fifth horse was put to, in order to shew how very com- may think it proper to express.' pletely five could do the work of seven. The load was afterwards drawn through the streets with two before and two behind, exciting the admiration of the peopie, who, from the great simplicity of the invention, were enabled to see in a moment the intention, as well as the obvious utility of the design .- Lon. FAYETTE HOSPITAL.

At a meeting of the contributors for the ounding of a Public Hospital in the county of Fayette, holden in the Clerk's Office of said county, on the 1st day of March, 1816, Andrew M'Calla being appointed chairman, and Thomas January, clerk, pro-tem.—the following persons were elected, agreeably with the provision of the above law, incorporating said hospital, for the purpose of purchasing, or of receiving by donation, ten acres of land within the jurisdiction of the trustees of the town of Lexangton, or contiguous thereto, as a scite, on which to erect said building, to contract for its erection—and to do such other act or as well as family ambition. It was not enough acts as may be contemplated by the law afore-

ANDREW M'CALLA, THOMAS JAMUARY, STERLING ALLEN, RICHARD HIGGINS, STEPHEN CHIPLEY

In consequence of the above appointment, proposals will be received by either of the above named persons for 10 acres of ground as a scite for the Fayette Hospital.

TO THE PEOPLE OF KEYTUCKY. FELLOW CITIZENS,

When announcing to you our appointment as a committee, to procure by purchase or donation, a scite on which to erect a Hospitalwe conceive it to be our duty, also, to apprise you of the views and objects of those gentlemen, who originally associated to found it, and to invite your assistance and co-operation, that we may be enabled to carry them speedily into execution. This we shall attempt to do in as

few words as possible.

It had long been observed and lamented by the associators, that notwithstanding our laws seemed to contain provisions for the relief of the pour, disabled, and infirm members of socie ty; yet, in practice, they by no means accom-plished the objects for which they were enact ed. Many are the individuals who suffer under afflictions, arising from disease and casualty, without the aid of medicine or surgery, who with the assistance of that skill and care which a public hospital would afford-might become useful to themselves, to their families and to society: and many there are, and will be, sinking fast to the grave in want, pain and misery, the evening of whose lives, could be made, comparatively speaking, easy and comfortable : whilst tunatics, who stand equally in need of the support and pity of society, who have no rich relatives to take care of hem, or possess no estate themselves, are suffered to roam at large through the country, without the prospect of cure, and in many instances, so as to endanger the lives of other members of society. The best remedy for these evils, was supposed to be the erection of a Hospital. Could an establishment be made, on a plan sufficiently extensive to collect and support all the infirm of the state, whether lunatics or not, who were unable to suppor themselves into one Hospital, it was remarked by physicians, that the chances of cure would encreased, not more from the care which would be taken of their persons, and the minute and constant attention which would be paid to the symptoms of their diseases, than to the superior skill which the physicians and surgeons attending, would acquire, in treating them. And it can be no unimportant recommendation to the proposed Hospital, that so-ciety itself would be made more secure against the wild and desperate actions of lunatics, if provision was made to confine them within it walls. It was but yesterday, that one of the best and most amiable men* of the nation, was slain by a lunatic; and as no effectual provi-sion exists in the laws to restrain them, there is no man who is secure against the same fatenor can it be said that society has done its duty, until some further provision is made on

this subject. Objects of asual bounty in a country like ours, all, must confess, are a bitter reproach

to the mass of the people who inhabit it.-Have we not seen every where, the aged, the houseless, and the decrepid, begging from door to door, the precarious morsel which the wants of nature demanded! Have we not be. held the disabled victim of poverty, even whilst tortering on the magin of the tomb, doomed by the deficiency of our laws to subsist upon cold and uncertain charity! often has the aged veteran been forced to bow his blanched locks in supplication for a pittance out of that fund, for which he had fought and bled-for which his frame had been enfeebled and his constitution wrecked!

People of Kentucky !- Have we been behind any of our fellow citizens of the Union in zeal, in patriotism, and national devotion? If o-then let us not be behind them in humanty-Let us both emulate and rival them in hose benevolent institutions, which afford a nome to the afflicted and an assylum to the destitute. Let us rear an edifice on the noblest feelings of the human heart, which shall be the receptacle of those who by disease, misfortune or devotion to their country, now are, or may hereafter be, reduced to a state of miserable and abject dependence.

Believing that these views and feelings are entertained by the People of Kentucky, we conceive ourselves to be authorised to call ipon ALL of them to aid us by their contribution to support an institution, so eminently calculated to exalt the character of our state; in institution that is not merely intended to benefit our immediate neighbourhood, but the unfortunate every where who may stand in need of a charitable assylum—and an institution, in fine, through which the money of the charitable may be more usefully and economically expended, than on objects of casual bounty.

Lesbia hath a beaming eye; But no one knows for whom it beameth; Right and left the arrows fly,

But what they aim at no one dreameth. Sweeter 'tis to gaze upon

My Nora's lid, that seldom rises, Few her looks, but every one, Like unexpected light, surprises : Oh! my Nora Crina dear!

My gettle bashful Nora Crina, Beauty lies, in many eyes,

But love in yours, my Nora Crina.

Lesbia wears a robe of gold, But all so close, the nymph hath lac'd it, Not a charm of beauty's mould

Presumes to stay where nature plac'd it; Oh! my Nora's gown for me, That floats as wild as mountain breezes.

Leaving every beauty free, To sink or swell, as heaven pleases! Yes, my Nora Crina, dear !

My simple, grateful Nora Crina, Mature's dress, is loveliness, The dress you wear, my Nora Crina.

Lesbia hath a wit refin'd, But, when its points are gleaming round us, Who can tell if they're design'd

Pillow'd on my Nora's heart, In safer slumber love reposes; Bed of peace! whose roughest part,

To dazzle merely, or to wound us?

Is but the crumpling of the roses! Oh, my Nora Crina dear!

My mild, my artless Nora Crina ! Wit tho' bright, hath not the light, That warms your eyes, Nora Crina! E3 e

It possesses such advantages for saving labor and expediting the manufacture of domestic goods, that your commit-tee recommends the same to the patronage of the good citizens of this commonwealth.

CERTIFICATE.

This may certify, that I have had in opera tion for two seasons past, at my place in Bourbon county, Kentucky, one of the domestic Roving and Spinning Machines, introduced into Kentucky by Stephen Andres. On a machine of 12 spindles, well made and attended, one woman with the aid of a small person may perform the labor of five or six on the common wheel. Patent Elastie Saddles. A word to those who are fond of easy riding.

The complaint against hard and uneasy saddles, which is for the most part a just and general one, and is really a great grievance to those who have much riding to do, has caused me to turn my mind particularly to that subject, with a view if possible to remedy the evil—I can with confidence assure the public that I have accomplished it—I have projected a plan which is by means of strong and well tempered steel springs, so constructed as to support the pered steel springs, so constructed as to support the saddle seat & give much greater ease to both rider & horse, than saddles made in the common way or any other that I have ever seen, can possibly do. The plan is entirely different from the English elastic plan is entirely different from the English elastic saddles with spring bars of steel, whalebone, &c. and also from those with wire springs, and I conceive much superior to either, as the elasticity is greater, and the tree not being put out of its original form, will not be subject to hurting horses on journeys, which is complained of in thesaddles with spring bars. A number of gentlemen in this town and its vicinity, have those saddles nowsin use, and but one tentiment I believe exists among them in favour ocheir seperiority—The invention is equally as applicable to ladies saddles as to gentlemens. Any person desirous of purchaling those easy saddles, is at liberty first to make trial of one and judge of their ease for themselves. In point of durability I will warrant them equal to any other saddles, and superior to most.

rior to most.

The have obtained a Patent from the United States for this invention, and am ready to dispose of patent rights to Saddlers, for other counties of states—If required, I will furnish a tree with springs ready fixed and strained, which may serve as a model to work by, and will give the necessary instruc-
